FOR IMMEDIATE RELEASE

The Circuit CIO Circle Adds Fast Switch as Sponsor

CINCINNATI – August 18, 2010 – The Circuit today announced that Fast Switch, Ltd., a leading provider of information technology consulting and professionals services, has joined Peak 10 as a sponsor of the organization’s CIO Circle, a group of more than 50 senior IT professionals from local businesses.

Fast Switch’s service span a continuum from pure IT professional services to executive search and technical recruiting services. This includes program offerings such as temporary-to-permanent conversion programs, co-sourcing, performance-based recruiting and other value-added services. Fast Switch specialization in technology provides companies with experienced and qualified candidates that meet the most stringent of IT staffing requirements.

“As our most active and long-standing technology circle, the CIO Circle and its members have set high standards for industry and executive collaboration and leadership,” said Jim Cunningham, president of The Circuit and executive director of C-CAP. “I believe that like Peak 10, Fast Switch saw this, and wanted to be a part of moving forward technology and the role of the CIO in the Cincinnati area. We appreciate Fast Switch’s sponsorship, and look forward to their ongoing participation and role in furthering the mission and vision of the CIO Circle.”

“The Circuit has established itself as the leader of the IT community in Cincinnati, and its CIO Circle provides a tremendous avenue for c-level communications,” added Doug Dockery. “We want the group to continue to grow and help more organizations, and we felt a sponsorship was a great way to show our support.”

The Circuit's CIO Circle, which began in 2005, is moderated by Matt Mountain, founder of NexGen Consultants. The group grew to more than 50 members this year and meets six times a year. The CIO Circle is a non-vendor group that brings together IT Leaders of local companies to discuss current technology and management issues, learn about new technologies and products, and help each other solve pressing problems.
