

Team:

We have recently become members of The Circuit, the regions IT Association. We've made this investment to provide each of you the opportunity to connect and collaborate with your peers and learn of the region's IT events.

Please take 3 minute to register on The Circuit website. This will enable you to receive notices of upcoming activities and simplify registering to attend future events.

We hope you will take advantage of this opportunity.

Set up your profile to make signing up for events quick and easy.

- Go to <https://www.thecircuit.net/membership/membership-types/>
- Scroll to the bottom to "Company Already Registered".
- Click "Become a Member" to the right.
- Type in your Organization name and all other appropriate fields.
- Click "Send".
- The request will be sent to our Team to "approve". Once it has been approved you will be registered under your company name on our website.
- You will automatically be signed up to receive The Digest, our e-newsletter.

Thank You!
